HEALTH & SAFETY

Spain is one of the world's top tourism and study abroad destinations. It has been declared a **safe destination** by the World Health Organization, OSAC, CDC and the U.S. State Department. No vaccinations are required for travel to Spain. Students will have access to one of the world's top healthcare systems, high food standards, and an **excellent network of public transportation systems**. Seville, Spain's fourth largest city, is a very safe destination with extremely low violent crime rates and significantly **fewer petty crimes than major European cities** like Barcelona, Paris, and Rome. EUSA maintains up-to-date health and safety information, educates students on how to handle potential risks, and provides support to all of our students in the event of an emergency.
